COURSE OBJECTIVES

1. Reflect on the current state of the nursing profession and ways to revive nurses for the future.
2. Describe new advances and ongoing challenges with treatment options for central line-associated bloodstream infections.
3. Identify current strategies and nursing implications in the treatment of Sarcomas.
4. Discuss how Oncologic Emergencies are identified, addressed and treated.
5. Identify current options and new advances in the treatment of relapsed Acute Lymphocytic Leukemia.
6. Define the elements of compassion fatigue and identify strategies to avert it.
7. Explore the present status of gene therapy in Sickle Cell Disease and implications for the future.
8. Reflect on the role of the nurse during end of life and how to maintain resiliency.
9. Explore the role of the physical therapist in the pediatric hematology/oncology setting.
10. Review platelet disorders including the pathophysiology and different treatment approaches.
11. Explore motivational interviewing concepts and how to integrate them into practice.
12. Provide an update on neuro-oncology diagnoses and discuss challenges and nursing implications.
13. Identify nurse retention challenges and tactics to overcome them.
14. Discuss updates in the treatment and overall survival of Hodgkin Lymphoma.
